

TOTO®

NEW PRODUCTS - FEBRUARY 2009

Introduction

The best in INNOVATION, QUALITY, VALUE, ECOLOGY, and DESIGN: These themes define the TOTO brand, our entire product selection and our success. They are the reasons why trade customers, architects and designers, kitchen and bath professionals, and consumers around the world choose TOTO over the competition.

INNOVATION

With vision and expertise, TOTO leads and never follows when it comes to designing, engineering, refining and delivering innovative technology that enhances your daily life.

QUALITY

Attention to detail, continuous improvement and over 90 years of experience fuel TOTO's product quality, which translates into unmatched performance and reliability.

VALUE

Value is not cost. True value comes from TOTO's commitment to overall environmental responsibility; quality, worry-free products; and superb performance. This approach leads to money savings, ecological preservation, satisfaction and peace of mind for those that choose TOTO.

ECOLOGY

While TOTO creates smart, water-saving toilets, faucets and showers, our manufacturing process has been engineered to recycle extensively, reduce energy and landfill wastes and save water. Every aspect of our lives and work revolves around efficiency and ecology.

DESIGN

TOTO embraces holistic design principles because performance, quality, functionality and ultimately, customer satisfaction are just as important as aesthetic appeal.

Icon Key

DOUBLE CYCLONE®

Double Cyclone indicates the cleanest and most powerful flushing system for HETs available on the market today.

SMA THERMOSTATIC VALVE TECHNOLOGY

Thermostatic valve that features Shape Memory Alloy (SMA) technology for reliability and maintaining consistent water temperature.

E-MAX®

E-Max indicates high-performance, HET flushing technology with a wide flush valve, large trapway and extra-large syphon jet.

SKIRTED DESIGN

Skirted Design indicates toilets featuring TOTO's 10", 12", and 14" Unifit Rough-In and concealed trapway design.

G-MAX®

G-Max indicates a flawless, quiet and powerful flushing system with gravity-fed boost to performance.

UNIVERSAL HEIGHT

Universal Height indicates toilets that allow for a more comfortable position across a wide range of users.

DUAL-MAX®

Dual-Max indicates a dual flushing system that optimizes conservation by allowing you to select 0.9 or 1.6 GPF.

ADA

Product complies with Americans with Disabilities Act accessibility guidelines.

SANAGLOSS®

SanaGloss glaze prevents debris, mold and bacteria from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.

WATERSENSEsm

Products that meet the EPA standards for water efficiency and performance criteria. Toilets are 1.28 GPF or less. Faucets are 1.5 GPM.

ECOPOWER®

EcoPower indicates sensor faucets and sensor Flushometer valves that are powered by flowing water.

Eco Soirée® – 1.28 GPF in an Attractive Contemporary Design

The Soirée suite transitions from curves to angles effortlessly, creating a bold contemporary design. The new high-efficiency Eco Soirée toilet (HET) offers 1.28 gallons-per-flush (GPF) technology that saves money and adds value. Eco Soirée features the innovative Double Cyclone® flushing system, whose dual-nozzle water propulsion system creates a more powerful efficiency flush and better bowl cleaning than many products that use more water. Thanks to TOTO's unparalleled attention to quality and detail, the Eco Soirée HET is a welcome addition to any bathroom.

- Clean contemporary design
- Double Cyclone flushing system
- SanaGloss® ceramic glaze available
- Universal height
- Decorative one-piece with skirted design and high-profile tank
- Elongated front bowl with SoftClose® seat
- Chrome trip lever
- 12" Unifit rough-in, less supply
- ADA compliant
- One year limited warranty

Eco Lloyd® – Geometric Design with Water Savings in Mind

Geometric precision epitomizes the Lloyd suite of products. Each refined line celebrates design excellence, while the new Eco Lloyd HET reinforces TOTO's place as responsible, innovative stewards of the environment. Using only 1.28 GPF, Eco Lloyd reduces water consumption by 20% over 1.6 GPF models while the E-Max flushing system ensures excellent performance with an extra-large siphon jet and a large glazed trapway. A powerful 1.28 GPF flush, stylish design and proven technology make Eco Lloyd a must for new building, large construction and remodeling projects.

- Geometric transitional design
- E-Max® flushing system
- Decorative one-piece with skirted design and high-profile tank
- Choice of decorative white or maple seats
- Chrome trip lever
- 12" Unifit rough-in, less supply
- ADA compliant
- One year limited warranty

Dartmouth® Lavatories – Every Detail Matters

Dartmouth's new pedestal and undercounter lavatories boast traditional flourishes combined with a versatile design that complements a variety of décors. A contoured backsplash and ample surfaces underscore the pedestal lavatory's traditional appeal, while the undercounter lavatory features design details that make it ideal for a wide range of interiors. In addition, you can mount the undercounter with the overflow in the front or rear, adding even more versatility for installation. Coupled with a Dartmouth toilet or as a stand-alone declaration of individuality, the Dartmouth lavatories breathe new life into your bathroom with best-in-class value and unwavering quality.

Dartmouth Undercounter Lavatory

- understated traditional design
- 18-3/4" X 13-3/4" Undercounter lavatory with mounting set and template
- Spacious oval basin with overflow drain
- ADA compliant
- One year limited warranty

Dartmouth Pedestal Lavatory

- Stylish traditional design
- 24-1/4" x 18-1/4" Pedestal and lavatory combination
- 34" Universal height
- Mounting set included
- Deep, generous basin
- Available models for 4" or 8" widespreads and single-hole faucet
- Rear overflow
- One year limited warranty

En™ and Po™ Deck-Mounted Faucets – Make a Lasting Impression

Impeccable contemporary styling places the new En and Po faucets high on the most-wanted list for 2009. From complementing the En and Po lavatories to adding balance to any vessel lavatory, these high-spout faucets lend a sleek aura to any bathroom. Enviably on the outside as well as on the inside, En and Po feature expertly engineered 1.5 GPM performance to create savings and washerless ceramic disc cartridges to ensure a lifetime of leak-free operation. The varying spout heights also allow you to choose the right dimensions for your project.

- Contemporary styling
- Deck-mount design to complement the En and Po lavatories and other vessel-style lavatories
- Single-lever operation
- Durable polished chrome finish
- Bronze valve bodies for superior durability and corrosion resistance
- Washerless ceramic disc valve cartridge
- WaterSense certified (1.5 GPM)
- Lifetime limited warranty (residential use)
- One year warranty (commercial use)

Concealed EcoPower® Electronic Flushometer Valves – Technology Meets Convenience

The sleek outward design of these new stainless steel flush valves is only the tip of the iceberg. EcoPower converts potential energy into kinetic energy that is stored in a capacitor to power the valve. In laymen's terms, the faucet powers itself to provide economical and ecological returns on investment. No changing batteries, no wiring, two cover-plate sizes and pistons instead of a less durable rubber diaphragms are just a few of the advantages. TOTO's EcoPower valves are really the only choice for low-maintenance, savings and reliable performance.

EcoPower Toilet/Urinal Flushometer Valve – 14" x 12"

- Back spud - concealed 14" x 12" cover plate
- Electronic flushometer valve complete with 3/4" angle stop and 3/4" & 1 1/4" vacuum breaker set
- Hydropower self-generating system
- No battery replacement for 10 years based on 2,000 EcoPower cycles per month*
- 0.5 or 1.0 GPF for urinal, 1.28 or 1.6 GPF for toilet
- 24-hour automatic flush
- Touch button ADA compliant

EcoPower Toilet/Urinal Flushometer Valve – 4" x 4"

- Back spud - concealed 4" x 4" cover plate
- Electronic flushometer valve complete with 3/4" angle stop and 3/4" & 1 1/4" vacuum breaker set
- Hydropower self-generating system
- No battery replacement for 10 years based on 2,000 EcoPower cycles per month*
- 0.5 or 1.0 GPF for urinal, 1.28 or 1.6 GPF for toilet
- 24-hour automatic flush
- Touch button ADA compliant

* Based on tests conducted by TOTO

Waza™ Lavatories – Zen Inspired

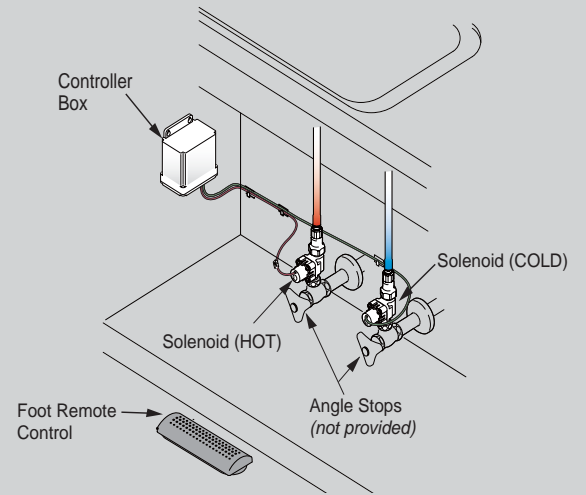

The essence of Japan is captured in these Zen-inspired masterpieces from TOTO. Pottery, known as Shigaraki-yaki, comes from Shigaraki Town and its surrounding area in Japan and dates back to the 13th century. Originally used for larger items, the high-quality clay produced in the area proved very resilient, making it perfect for larger items like storage vessels and bowls for the home.

The unique finish, which results from firing iron in the clay, leaves a mesmerizing natural glaze that contribute to the unique coloring of TOTO's Waza vessel lavatories. The lavatories' natural shapes and colors also help you bring the beauty of nature inside. Waza vessels are a healthy reminder in our hectic world that great design expresses a fluency and organic nature that can only be truly represented by natural materials.

- Zen-inspired designs
- Hand-crafted in the Shigaraki region of Japan
- Fired, unglazed ware that is famous for its ash deposits, distinctive forms and durability
- Available in 5 distinctive colors: Woodland Green, Burnished Gold, Pacific Blue, Autumnal Red and Dappled Sunlight

Wi-Touch™ – Hands-Free Faucet Operation

In our hectic, congested world, achieving more simplicity and a clean living space are challenges. Wi-Touch is a simple, easy-to-install add-on solution that allows you to achieve both in your kitchen and bath. The wireless remote control allows you to operate your faucet without using your hands, preventing the spread of germs and bacteria to the faucet, where they remain and are passed on to the next user unless sanitized. You can even install with any standard manual faucet, with or without pullout sprays, and users will love the easy-to-clean, ergonomic remote control. Wi-Touch can save you money and the environment by reducing your dependence on harsh cleaning supplies and help prevent waste since you can turn off the water even when your hands are occupied by other tasks.

- Allows hands-free operation
- Wireless remote control can be placed anywhere within a radius of 3 feet from control box, such as at foot, knee or elbow levels
- Wi-Touch can be added to virtually any manual bath or kitchen faucet
- Control box requires 4 AA batteries (included); Remote requires 1 lithium battery (included)

Washlet® C110 – Beauty and Intelligence

The entry-level Washlet gets a sleek facelift with the new C110's streamlined side-control panel. All of Washlet's features translate into comfort, hygiene, ecology, innovation and value. With the touch of a button, a nozzle extends from under the seat for soothing warm-water cleansing, virtually eliminating the need for toilet paper. The nozzle, which self-cleans before and after every use, can be set to move back-and-forth for maximum comfort and optimum cleansing. The specially designed contoured seat is also heated to provide maximum comfort.

- Heated seat with temperature control between 79° and 97°F
- SoftClose® seat to prevent slamming
- Front and rear warm-water washing with pressure control
- Automatic self-cleaning wand
- New streamlined control panel with button control for all functions
- Water temperature can be set between 86° and 104°F
- Quick-release feature that allows the seat to be removed for easy cleaning
- Includes Washlet toilet seat with cover mounting and connection hardware (elongated and round versions available)

The C110 is a part of the Washlet family of products that also includes the Washlet S400, S300 and E200. Each of these models offers the same functionality as the C110, except they work with a stylish wall-mounted remote control and offer certain unique features:

- Washlet S400 is the most sophisticated model with air deodorizer and dryer function as well as auto-flush functionality with sensor technology.
- Washlet S300 is a great mid-range solution because it features an air deodorizer as well as a dryer function.
- Washlet E200 allows you to upgrade from the basic C110 model with a wall-mounted remote control instead of a side-control panel, and it also features the dryer function.

Ethos™ High-Efficiency Faucets – Water Savings Plus Design Excellence

The Ethos collection features designs inspired by three of the most architecturally distinct cities in America: New York, Chicago and Los Angeles. Ethos lavatory faucets are now offered with a 1.5 gallons-per-minute (GPM) flow rate, reflecting a new ethic in US culture and history: The “Green” movement for smarter ways to use water and other natural resources. The new 1.5 GPM models increase overall value by helping you save water and by offering a great design that you will appreciate for years to come. And because TOTO never does anything half-way, we utilize a new aerator design to optimize flow, resulting in no discernable difference between 1.5 GPM and 2.2 GPM, the common flow rate of products in the market. Saving 31% on water usage speaks for itself.

Ethos Design N I

Born of the ritzy styles that define the classic cosmopolitan era of New York

Ethos Design N II

Reflecting the fearless motifs of New York’s modern, geometric architecture

Ethos Design C

Improvising and playful, just like Chicago’s diverse tastes in music, food and landscape

Ethos Design L

A relaxed, organic design that epitomizes the attitudes and lifestyles of Los Angeles
