TOTO INNOVATION

## GYROSTREAM BODYSPRAYS

***Revolutionary Water Technology Generates  
High-Efficiency 1.0 GPM Bodysprays***

**Morrow, GA – November 11, 2009** – TOTO's new Gyrostream Bodysprays are luxury products with a social conscience. They enable bathers to enjoy the relaxation of a warm bath with the convenience of a shower while using water responsibly.

TOTO's new water technology Gyrostream brings the relaxing qualities of bath culture to American's love affair with the shower. When equipped with Gyrostream, water diverted to the bodysprays flows through nozzles oriented on two different axes that tilt and rotate, resulting in greater

and more consistent water distribution. This luxuriant whole body drenching encases individuals in warm water, as if they were in a bath, and keeps them cozy, warm, and relaxed, even if the room temperature is cool.

The pressure generated as the water flows through the precisely engineered casements creates this rapidly rotating motion. The swirling water massages the muscles and stimulates blood circulation, refreshing the whole body while consuming a mere 1.0-gallon per minute (53-60% less than water than common body sprays), which benefits the planet.

With Gyrostream technology fitted into the bodyspray, a swirling flow of water covers the whole body for complete comfort and incomparable heat-retention.

***As with all TOTO products and technological innovations, high-resolution digital photos of Gyrostream and NEOREST II Bodysprays are immediately available upon request.***

TOTO is the largest plumbing manufacturer in the world with over \$4.5 billion in annual sales and 80 affiliated production facilities globally. Since 1917, TOTO Ltd., Japan, has been a pioneer in high-performance plumbing systems that bring consumers superbly designed products that are water and energy efficient. In 1989, TOTO brought its innovative technology and commitment to excellence to the US market. A full line manufacturer of luxury plumbing products that optimize healthful living, TOTO USA, INC.'s success derives from its unsurpassed commitment to quality, reliability, technological innovation, and sustainability -- a commitment that pushes the company beyond industry standards. The winner of numerous domestic and international awards and recognitions, TOTO USA is certified by ISO 14001: 2004 and ISO 9001: 2000. The only plumbing manufacturer to be honored as Water Efficiency Leader by the Environmental Protection Agency, TOTO seeks perfection by design as it continuously innovates sustainable water technologies that enhance the lives of its customers and the environment.
