GREEN AND CLEAN

CLEAN DRY HAND DRYER IS NOW RECESSED

*In-Wall Sustainable Alternative to Paper Towels
Joins Popular Wall-Mount Model*

Morrow, GA – May 1, 2009 – TOTO's new Brushed Chrome Recessed Clean Dry Hand Dryer joins its popular wall-mounted model; both are ADA-compliant high-speed hand dryers. Infrared sensor-operated, their innovative air wicking technology completely dries the user's hands in under 12 seconds, which means that they use a quarter less energy than traditional electronic hand dryers, which dry ineffectively. Further, these high-speed hand dryers are extremely quiet during operation, with a low decibel rating of 62 dB, making them not only effective and beautiful, but also very easy on their ears.

Their washable filters (which may be reused) keep room's air clean and fresh. Drain trays collect the water dripping from users' hands, preventing watermarks from marring product's beauty and molds from growing in the bathroom.

A sound investment both ecologically and economically, Clean Dry Hand High-Speed Hand Dryers eliminate the need for paper towels, which destroy natural resources as well as the aesthetics of the high-end restroom. The monthly operating cost for the Clean Dry is approximately \$0.55, while the cost of paper towels is an average of \$55.00.
