The warm seat from TOTO

Warm Seat

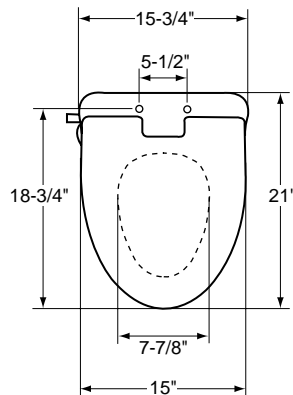

The Warmlet's "warm seat" feature eliminates cold toilet seat discomfort by allowing you to adjust

the seat's temperature to your preferred setting. This innovation enhances your comfort while adding luxury to your bathroom.

Ergonomic Design

The Warmlet's unique seat design fits the contours of the human body to ensure maximum comfort and enjoyment.

SH104

SoftClose Seat

The Warmlet utilizes innovative "smart seat" technology to eliminate annoying toilet seat "slam." The Warmlet

SoftClose hinge system lowers the seat down to the bowl gently and quietly. The SoftClose feature offers a smooth, silent close reducing the chance of injury and wear and tear to the seat.

Easy Installation & Cleaning

In addition to the warming and SoftClosing features, the Warmlet is extremely easy to install and clean.

The Warmlet, similar to a conventional toilet seat, requires only two bolts to install. Once installed, simply plug into a 120V CFI outlet, and the Warmlet is ready to use.

A quick-release seat system utilizes two push buttons to remove the Warmlet for easy cleaning.
