The Neorest 750H with Actilight technology is truly a revolutionary innovation at the peak of luxury. This intelligent toilet uses an integrated UV light and special glaze to break down dirt and grime in the bowl, and rinses it clean with ewater+. And with other features like a heated seat, deodorizer and warm water sprays, Neorest 750H delivers an unparalleled sense of relaxation to you in the most comforting and refreshing ways possible.
ACTILIGHT™ TECHNOLOGY
Innovation and Technology Highlights

IMMACULATE, ALL ON ITS OWN

Experience the pleasure of using a toilet that looks and feels brand new every time. Neorest with Actilight gets rid of both visible and invisible waste without any extra effort from you.

BRIMMING WITH TECHNOLOGY

The two key features of Actilight are the special photocatalytic glaze that’s fired onto the bowl and an ultraviolet light inside the lid.

These two technologies work together with oxygen and water in the air to create a photocatalytic process that breaks down waste.

PLANET - FRIENDLY

The Actilight process is a natural one that uses no chemicals — just light, oxygen and water. Neorest with Actilight minimizes the need for additional maintenance and reduces the use of harsh detergents that negatively affect our environment.
HOW IT WORKS
Easy and Convenient to Use.

FRONT & REAR CLEANSE FUNCTION
With the touch of a button, a wand extends from under the seat for soothing warm-water cleansing.

1. PREMIST™ (WATER)
Premist water is sprayed into the bowl.

2. In-Use

3. WAND SELF-CLEANING
Wand is cleaned with water.

4. ewater+ (ELECTROLYZED WATER)
Wand and bowl are cleaned with ewater+.

5. Actilight TECHNOLOGY
UV light activates the photocatalyst and decomposes waste particles.
**Actilight™ TECHNOLOGY HIGHLIGHTS**

The combination of the special glaze and UV light triggers a photocatalytic process that destroys waste.

1. **SPECIAL GLAZE**
   The ceramic features a special photocatalytic glaze that is especially durable and hydrophilic. Water easily washes away and eliminates the waste.

2. **Actilight (UV LIGHT)**
   Once the toilet lid is closed, the integrated UV light turns on for an hour.

3. **ACTIVATED OXYGEN**
   The interplay of the special glaze and UV light releases activated oxygen, which breaks down waste without attacking the surface – a process that is completely safe for the environment.

4. **SELF-CLEANING TOILET**
   The Actilight function makes the toilet completely self-cleaning. If the toilet is not in use for eight hours, it automatically sprays the bowl with ewater+. After 10 hours, the UV light in the lid switches on.

# TECHNICAL DATA

## POWER RATING
120V AC, 60 Hz, 1300W

## LENGTH OF POWER CORD
4 ft

## TOILET
- **FLUSH VOLUME**: 1.0 GPF/3.8 LPF & 0.8 GPF/3.0 LPF
- **FLUSH TYPE**: TORNADO/SIPHON JET

## WASHLET WAND FLOW RATE
- **REAR**: 9.1 to 14.5 oz/min.
- **SOFT**: 10.8 to 14.5 oz/min.
- **FRONT**: 9.8 to 14.5 oz/min.

## WATER TEMPERATURE
86°F – 104°F

## DRYER
- **AIR TEMPERATURE**: 95°F – 130°F
- **AIR CAPACITY**: 10.2 ft³/min

## HEATED SEAT
- **SURFACE TEMPERATURE**: 82°F to 97°F
- **HEATER POWER CONSUMPTION**: 60W

## AIR PURIFIER
- **METHOD**: O₂ Deodorizer
- **AIR VOLUME**: 5.7 ft³/min

## WATER SUPPLY PRESSURE
7PSI @ 2.6GPM

## WATER SUPPLY TEMPERATURE
33°F to 95°F

## AMBIENT TEMPERATURE
33°F to 104°F

## SIZE
17-5/8” x 31-7/16” x 20-3/4”

## TOTAL PRODUCT WEIGHT
123.6 lbs.
