FACT SHEET: ECO DRAKE TRANSITIONAL HIGH-EFFICIENCY TOILET

(Morrow, GA) February 4, 2014 — TOTO's popular Eco Drake line of high-efficiency toilets increases its versatility with the Eco Drake Transitional HET, which will add an alluring design element to bath interiors for residential, hospitality, and commercial environments.

People-Centered Design

The Eco Drake Transitional HET's tank flares gently as it rises to support a generous lid with a distinct lip that has been molded into a shelf, creating newfound space for toiletries, tissues, or other bathroom necessities.

Inclusive Design

This inclusive design HET is 17-inches from its base to the top of the seat, making it easy to sit and rise comfortably for people of all ages and abilities.

E-Max Flushing System

The gravity-fed Eco Drake Transitional toilet offers TOTO's plant-friendly E-Max flushing system, which provides superior 1.28 gallons per flush performance by utilizing:

- high head pressure to maximize flow rate,
- a re-engineered 3-inch flush valve that sits higher in the tank and prevents clogging,
- a specially designed fill valve that provides the height necessary to produce its extra powerful head pressure,

- a 2-1/8-inch glazed computer-designed trapway, and
- quiet siphon-jet action for powerful flushing.

High-resolution digital photographs of the Eco Drake Transitional Design HET are available for download from TOTO's Online Press Room or immediately upon request.

About TOTO:

TOTO USA is headquarters for the Americas Division of the TOTO Global Group, which was established in 1917 with the founding of TOTO, Ltd., in Kitakyushu, Japan. TOTO is the world's largest manufacturer of bathroom fixtures and fittings with \$5.1 billion dollars in annual sales. For nearly 100 years, TOTO has been the recognized leader in performance innovation and design with products that enhance the luxury bathroom experience. Today, the company maintains 23,500 employees in 69 offices around the world and owns manufacturing facilities in Japan, Mexico, the USA, China and Europe with an affiliated network of more than 80 production facilities worldwide. With over 1,500 engineers on staff and three centers devoted to research and development, TOTO is dedicated to engineering products that respect the environment while meeting people's needs for comfort, beauty and performance. TOTO's corporate philosophy – People-First Innovation – is the guiding principle for all the company's processes, from engineering and design to manufacturing and sales. Consumers enjoy the peace of mind that comes from knowing they purchased a brand that innovates to improve people's quality of life. Winner of numerous domestic and international awards and recognitions, TOTO is the only plumbing manufacturer honored as Water Efficiency Leader by the U.S. Environmental Protection Agency. The company continues to raise industry standards and consumer expectations as to what is possible in the bathroom, as TOTO believes a high-quality bathroom is an experience and an everyday luxury people value and appreciate.
