ICON GUIDE

SHOWER

SAFETY THERMO®

Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.

AERO-JET+®

Uses air injection technology to increase water volume with an additional pulsating feature for a more invigorating shower experience.

AERO-JET®

Uses air injection technology to increase water volume by adding air into each water droplet, creating voluminous droplets while using less water.

CASCADE FLOW

Curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM

Rotating shower nozzle with pulsating water stream that creates a massaging effect.

MINI UNIT

Unified exterior sizes for concealed shower valves creating a balanced bathroom space.

WARM SPA®

The feeling of a warm bath in a shower with water flow that envelopes and warms the body efficiently with no splash.

COMFORT WAVE®

A mix of large droplets and standard spray creates a shower with moderate intensity and just the right amount of stimulation.

ACTIVE WAVE®

Large droplets of water producing a more vigorous, high intensity shower.

FAUCET

COMFORT GLIDE®

Precise and easy flow control of water based on user's touch.

SOFT FLOW

Keeps splashing to a minimum for comfortable use and soft to the touch water.

TUB

ZERO DIMENSION®

A zero-gravity bathing experience, letting the body float in a completely tension-free state, creating absolute relaxation for the body and mind.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

RECLINE COMFORT™

Reclined bathing position that embraces the neck and back to provide a deep sensation of relaxation and tranquility.

GENERAL FEATURES

AUTO FUNCTIONS

Product featuring an integrated, automatic, sensor activated function.

ADA

Product complies with Americans with Disabilities Act guidelines.

WATERSENSE

Product that meets EPA standards for water efficiency and performance criteria.

CEC

Product meets California Energy Commission requirements.

DESIGN AWARDS

**reddot award
winner**

The Red Dot is the award for high design quality. The international jury only awards this sought-after seal of quality to products that feature an outstanding design.

IF AWARD

The iF DESIGN AWARD has long become a symbol for excellent form, for aesthetic quality, and for user-focused, ergonomic and efficient design in all disciplines, by companies around the world.

A Variety of Colors & Finishes

Many colors and finishes to brighten up carefully design spaces.

We offer rich, original colors and finishes that add an accent to spaces and facilitate advanced styling.

YOUR IDEAL SHOWER SPACE BEGINS RIGHT HERE.

WARM SPA®

A BRAND NEW SHOWER SYSTEM. WATER LIKE A WARM CLOAK.

The feeling of a warm bath, in a shower. This is the power of the WARM SPA®. A single pillar of warm water running quietly from the showerhead. When water hits the body, it follows the curves and envelops it without a splash. A completely new shower experience, warming your body efficiently.

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower.

LET NO HEAT ESCAPE. BE WARMER.

Smooth water release means less heat loss. The water cloaks your body, quickly warming it to the core. This feature is now available not only in conventional overhead showers, but handshowers too.

WARM SPA

CONVENTIONAL SHOWER

COMFORT WAVE®

ACTIVE WAVE®

A NEWLY DEVELOPED NOZZLE FOR GREATER COMFORT.

We newly developed our original shower nozzles with bigger droplets than conventional showers. Large drops of water swing and flow with power, delivering a comfortably stimulating shower while saving water. Feel refreshed with the moderate-intensity of COMFORT WAVE®, and invigorated with the high-intensity flow of ACTIVE WAVE®.

COMFORT WAVE

Uses a new nozzle to add larger drops of water to the shower for a comfortable experience with just the right amount of stimulation.

ACTIVE WAVE

Uses the newly developed shower nozzle capable of large drops of water. It provides a more vigorous, more uplifting shower than the COMFORT WAVE.

 **COMFORT WAVE**

 **ACTIVE WAVE**

A PERFECT SHOWERING EXPERIENCE WITH JUST ONE TOUCH.

For the handshower, we installed a switch right at your fingertip allowing you to easily change between WARM SPA®/COMFORT WAVE®/ACTIVE WAVE®. The switch for the overhead shower is located inside the showerhead to change between WARM SPA and COMFORT WAVE.

**AERO[®] SHOWER
TECHNOLOGIES**

A REVITALIZING EXPERIENCE IN EVERY SINGLE DROP.

Aero showers combine TOTO's premium water-saving technologies with luxurious comfort features, creating the feeling of a full, rich shower while using less water than a standard showerhead or handshower.

AERO-JET® AND AERO-JET+®

AERO-JET uses air injection technology to increase water volume by adding air into each water droplet, resulting in a full, rich shower. AERO-JET+ technology adds a pulsating feature to the stream, for an even more invigorating experience.

CASCADE FLOW

The nozzle flow is a curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM

The handshower features a rotating shower nozzle with pulsating water stream that creates a massaging effect.

MINI UNIT

THE EXACT EXTERIOR YOU WANT.

TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a thermostat type or touch button type, and also make choices based on design features such as circle or square fixtures.

SAFETY THERMO®

TEMPERATURE SWINGS, SOLVED IN AN INSTANT.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

TOTO SHOWER CONFIGURATIONS

Besides water flow and design, you can choose the number of outlets as well. From something simple to highly decorated, options are available based on your lifestyle and style preference.

ZN FAUCET

The ZN Faucet features a beautiful design inspired by graceful flowing water. The precisely balanced streams of water from SOFT FLOW touches the skin gently, causing almost no splatter as you wash your hands. The feeling is soft, yet strong and enriching. Sensor-operation eliminates the need for levers or buttons to touch.

ZN LAVATORY FAUCET TLP01701U

Polished Chrome

Brushed Nickel

SPLASH-FREE HANDWASHING

SOFT FLOW technology creates little to no splashing, even as the water completely envelops your hands, enveloping them in warmth and comfort.

HANDS-FREE OPERATION

The ZN Faucet has sensors both for opening and closing the spout and for switching between hot and cold water. Simply waving the hand over each sensor operates it.

COMFORT GLIDE®

EASE OF USE, BASED IN SENSATION.

For TOTO, comfort does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on the user's touch. Designed from the ground up to provide fundamental comfort in operation.

Special Coating for Prolonged Comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

EASY TO USE FOR A LIFETIME OF COMFORT.

The graph shows the number of years in use and its operating force. It is evident that comfort lasts for a long time with models featuring COMFORT GLIDE®.

ZA SERIES

Lightness and dignity in a natural shape for a timeless design.

Sharp edges, the beauty of generous curves, and the contrast of polished and hairline finishes combined in a modulated design that achieves balance of a different order. The handle, asymmetrically shaped like a small stone, is beautiful from any angle and settles in rhythmically.

Enhancing flow and gesture, the design fits the sharp washbasin bowl.

Abundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

GS SERIES

A modern design wrapping a relaxed, unassuming shape.

Adding soft curves to a universal basic shape results in smart proportions that convey a gentle visual and textural impression in a timeless design suited for everyday use. Expanded color and finish options leave an even fresher impression.

BATH

TUBS

ZERO DIMENSION[®]

Immersed in the meditative moment of relaxation.

THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the Flotation Tub. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit creating a sanctuary from the physical and mental fatigue today's world brings.

Graphic Image

THE BRAIN IN A STATE OF TRANQUILITY

Research has shown that the ZERO DIMENSION bathing posture reduces activity in the part of the brain that houses the language function. This is the reason ZERO DIMENSION bathing feels calming and relaxing.

BATHTUBS

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

ADVANCED FUNCTIONS STIMULATE RELAXATION

Exclusive features make every bath a luxurious occasion.

HYDROHANDS

Propels powerful water currents without air bubbles, delivering a firmer “touch” to the body. The water flow is soundless.

CONTROLLER

The electrostatic controller is operated by the slightest touch.

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

GALALATO® MATERIAL

Offering outstanding durability, the tub is made of Galalato artificial marble and constructed using TOTO’s innovative sandwich configuration.

LED LIGHTING

In the outer perimeter of the tub’s base, LED lighting supplies a dream-like ambience.
