FACT SHEET: ULTRAMAX II 1G

Elegant One-Piece Performance-Design Harnesses Patented Double Cyclone Ultra High-Efficiency 1.0 gpf Flushing Technology

(Morrow, GA) February 4, 2014 — Like the Drake II 1G before it, the UltraMax II 1G—with its proven Double Cyclone technology—delivers unparalleled, ultra high-efficiency flushing using only one gallon of water. With its long-view global design aesthetic and clean, simple lines, the UltraMax II 1G will grace any bathroom environment for years to come.

Double Cyclone Ultra High-Efficiency Flushing

TOTO's gravity-fed Double Cyclone ultra high-efficiency flushing system features two water jets, positioned on each side of the bowl's interior to deliver powerful swirls of water. With this unparalleled flushing action, all types of waste are flushed away effectively using a mere one gallon of water. In addition to removing waste, this balanced flush completely cleanses the bowl and rim.

With TOTO's gravity-fed UltraMax II 1G, consumers can get balanced, powerful, ultra high-efficiency, 1.0 gpf flush without having to buy a toilet that uses complex pressure-assist technology—thereby avoiding the considerable noise of a pressure-assist toilet's flushing system, as well as its highly pressurized internal tanks.

SanaGloss

The elegant one-piece UltraMax II 1G's bowl and concave rim are coated with SanaGloss, TOTO's

– more –

nano-technology glaze that seals the porcelain with an ionized barrier. This creates a super-slippery, non-porous surface that repels visible and invisible waste. When protected by SanaGloss, the water that cleanses the bowl and rim during the flush also removes waste (visible and invisible) stains, residue, and limescale buildup. When cleaning the bowl, owners will need fewer harsh detergents, which are expensive and harmful to the environment.

Inclusive Design

An example of TOTO's Total Design philosophy, the UltraMax II 1G is 17-inches from base to seat. This inclusive design is comfortable for people when sitting or rising, making it an attractive, one-piece design that exceeds ADA and Universal Design requirements.

As with all TOTO products, high-resolution digital photographs of the UltraMax II 1G are available for download from TOTO's Online Press Room or immediately upon request.

About TOTO

TOTO USA is headquarters for the Americas Division of the TOTO Global Group, which was established in 1917 with the founding of TOTO, Ltd., in Kitakyushu, Japan. TOTO is the world's largest manufacturer of bathroom fixtures and fittings with \$5.1 billion dollars in annual sales. For nearly 100 years, TOTO has been the recognized leader in performance innovation and design with products that enhance the luxury bathroom experience. Today, the company maintains 23,500 employees in 69 offices around the world and owns manufacturing facilities in Japan, Mexico, the USA, China and Europe with an affiliated network of more than 80 production facilities worldwide. With over 1,500 engineers on staff and three centers devoted to research and development, TOTO is dedicated to engineering products that respect the environment while meeting people's needs for comfort, beauty and performance. TOTO's corporate philosophy —People-First Innovation —is the guiding principle for all the company's processes, from engineering and design to manufacturing and sales. Consumers enjoy the peace of mind that comes from knowing they purchased a brand that innovates to improve people's quality of life. Winner of numerous domestic and international awards and recognitions, TOTO is the only plumbing manufacturer honored as Water Efficiency Leader by the U.S. Environmental Protection Agency. The company continues to raise industry standards and consumer expectations as to what is possible in the bathroom, as TOTO believes a high-quality bathroom is an experience and an everyday luxury people value and appreciate.
