FACT SHEET: THE CONNELLY SUITE

(Morrow, GA) February 4, 2014 — TOTO's Traditional design Connelly Suite is inspired by the timeless sophistication of classic Hollywood and the Arte Deco period, known for its bold lines, lavish designs, and opulent style.

Connelly Lavatory Faucet

Offered in widespread or single-lever options, this inclusive-design faucet's lever handles serve as a graceful counterpoint to the vertically detailed, gently flared bases. The spout's curve, against the crisp lines of the base, creates an elegant contrast, giving the faucet a stylish look that evokes memories of a time gone by. It is available in a variety of finishes, including Polished Chrome, Polished Nickel, and Brushed Nickel.

WaterSense-labeled, this high-efficiency faucet consumes a planet-friendly 1.5 gallons per minute, without sacrificing an ounce of performance. Engineered for today's active households, it features forged brass construction valves with ceramic disk cartridges that exceed industry standards for longevity, improving temperature and flow control for superior performance throughout the product's lifetime

Connelly Dual Flush High-Efficiency Toilet

Inspired by traditional American furniture design, this elegant toilet's skirted bowl is supported by a distinctive column, and its bold geometric tank supports a generous lid that has been molded into a shelf, creating newfound space for toiletries, tissues, or other bathroom necessities.

The inclusive-design Connelly toilet is 17-inches from base to seat top, making it comfortable to sit and rise for people of all ages and abilities. It is available in Cotton, Colonial White, Sedona Beige, Bone, and Ebony colors.

The Connelly toilet's Dual-Max Cyclone Flushing System puts an end to a common complaint that many dual-flush HET owners have—the need to flush, then brush the bowl to remove streaking after every solid stop. Inspired by cyclones in nature, TOTO engineers harnessed the power of gravity and water to spin away waste by designing a seamless bowl interior with a concave rim to channel high-speed water jets. Each flush effectively spins away visible and invisible waste, as it provides superior bowl and rim-cleansing action. Glazed with SanaGloss, the bowl and rim have a super-slippery, non-porous surface that repels waste (both visible and invisible). Owners won't need harsh cleaning

chemicals, which are expensive and harmful to the environment.

This WaterSense-labelled, high-efficiency toilet consumes a responsible 1.28 gallons per flush (gpf) for solid waste and 0.9 gpf for liquid. Averaging solid and liquid stops over the course of a day, the average flush for this elegant dual-flush toilet is 1.0 gpf.

Connelly Undermount Lavatory

With inclusive height installation options, the Connelly Undermount Lavatory features a generous 15-inch square design with the sophisticated lines that typify the glamorous suite. Its deep basin reduces water splashing, and its SanaGloss glaze saves homeowners time cleaning as the super-slippery surface repels soap debris. It is available in Cotton, Colonial White, Sedona Beige, Bone, and Ebony colors.

High-resolution digital photographs of the Connelly Suite are available for download from TOTO's Online Press Room or immediately upon request.

About TOTO:

TOTO USA is headquarters for the Americas Division of the TOTO Global Group, which was established in 1917 with the founding of TOTO, Ltd., in Kitakyushu, Japan. TOTO is the world's largest manufacturer of bathroom fixtures and fittings with \$5.1 billion dollars in annual sales. For nearly 100 years, TOTO has been the recognized leader in performance innovation and design with

products that enhance the luxury bathroom experience. Today, the company maintains 23,500 employees in 69 offices around the world and owns manufacturing facilities in Japan, Mexico, the USA, China and Europe with an affiliated network of more than 80 production facilities worldwide. With more than 1,500 engineers on staff and three centers devoted to research and development, TOTO is dedicated to engineering products that respect the environment while meeting people's needs for comfort, beauty and performance. TOTO's corporate philosophy —People-First Innovation —is the guiding principle for all the company's processes, from engineering and design to manufacturing and sales. Consumers enjoy the peace of mind that comes from knowing they purchased a brand that innovates to improve people's quality of life. Winner of numerous domestic and international awards and recognitions, TOTO is the only plumbing manufacturer honored as Water Efficiency Leader by the U.S. Environmental Protection Agency. The company continues to raise industry standards and consumer expectations as to what is possible in the bathroom, as TOTO believes a high-quality bathroom is an experience and an everyday luxury people value and appreciate.
