INSTALLING A WASHLET®
IS MUCH LIKE CHANGING A TOILET SEAT,
BUT THE FEATURES AND BENEFITS
FAR EXCEED
ANY TOILET YOU EVER OWNED.

WASHLET S350e/s300e
FIT CHART

WASHLET S350e
PROMENADE® II 1G® ONE-PIECE TOILET
WHAT IF MY TOILET ISN’T A TOTO TOILET?
WILL THE WASHLET STILL FIT?

On a standard Toilet with no curves between the seat and tank, all you need is 1-3/4 inches of room past the mounting bolts.

- **Elongated Bowl** (SW584 SW574)
  - Center of Hole: 18-1/2" (470 mm)
  - Lip of Bowl: 5-1/2" (140 mm)
- **Round Bowl** (SW583 SW573)
  - Center of Hole: 16-1/2" (420 mm)
  - Lip of Bowl: 5-1/2" (140 mm)

**GFCI OUTLET REQUIRED**
Power cord 3.9 feet. Surge protector recommended.

WASHLET requires a minimum distance of 1-3/4" (45 mm) between the center of the mounting holes and the front most face of the tank. As long as the toilet corresponds with the above measurements, the WASHLET will fit.

**NOTE:** Some styles of toilets may not allow the Washlet S300e/S350e to be installed due to certain contours near the tank and bowl area (see figures below). In the figure on the left side below, dimension D does not allow enough open space to accommodate the minimum width of 9 inches.

<table>
