HYDROTECT

# HYDROTECT

## HYDROCERA™ Urinal Mat TP60PUS11

The large tiles with HYDROTECT are designed to fit under bathroom fixtures to minimize odor and stains, making them ideal for commercial and high traffic areas.

# HYDROCERA™ Urinal Mat TP60PUS11

## Easy to clean mechanism

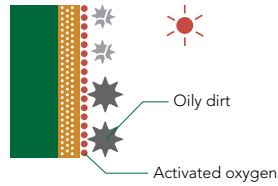

Reduces absorption of dust and other particles.

The surface carries no electric charge, therefore reducing the absorption of dust and other particles.

Zero percent water absorption means the tile is very easy to clean.

Prevents dirt from sticking to surfaces.

Activated oxygen decomposes dirt clinging on the surface and helps prevent it from sticking.

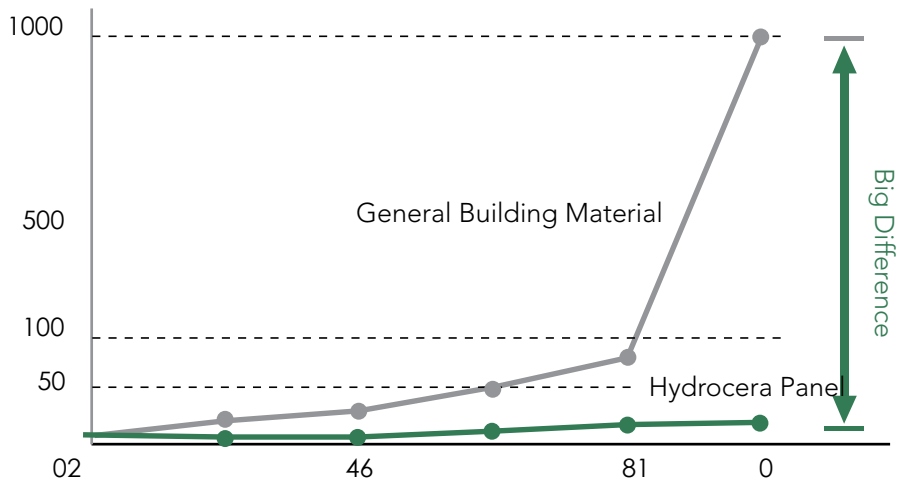

Harnessing the power of water to wash surfaces.

The surface acts like a water magnet — allowing water to get under dirt particles then washing them away.

## PREVENTING BAD ODOR

Anti-Odor Test (Amونيا Concentration (ppm))

## PREVENTING STAIN

Anti-Stain Test

Standard tile

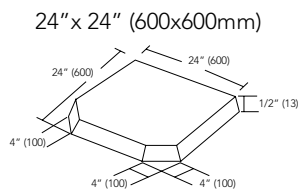

HYDROTECT tile

(Left Image) Yellowish stain with urinary calculus  
(Right Image) No stain because of its HYDROTECT performance

Tested per ISO Standard
